### Description

An understanding of color is an exciting and powerful tool for all weavers. Part science and part intuition, the right combination of colors can turn an average weaving into a spectacular weaving. This **8-session** class will focus on color theory, color terminology, value, and color proportion for both the warp and weft.

There will be reading, **extensive** color study homework and 3 weaving assignments.

## Prerequisites for participants

- Color Play, Second Edition by Joen Wolfrom (make sure it is the second edition), and
- a 3-in-1 Color Tool (the third edition) by Joen Wolfrom.
