## Description

Learn to design & create a twined mini basket with waxed linen of various sizes. Students will construct the spoke base and weave in their chosen color palette and craft a basket with mixed decorative stitches including finishing techniques. Basket samples and demonstrations will support handouts that have detailed stitch mechanics. Resources for fashioning baskets of all sizes are also included.

### Prerequisites:

No previous experience needed and all materials are provided. See material fee above.

### Materials to be provided by/additional instructions for students:

Bring a small scissors for cutting waxed linen, a pencil for taking notes. Plan to twine the assigned stitches during the week between the class sessions. This homework should take approximately 8 hours.
