Description

An understanding of color is an exciting and powerful tool for all weavers. Part science and part intuition, the right combination of colors can turn an average weaving into a spectacular weaving. This 8-session class will focus on color theory, color terminology, value, and color proportion for both the warp and weft.

There will be reading, extensive color study homework and 3 weaving assignments.

Prerequisites for participants

- Required Materials: Color Play, second edition by Joen Wolfrom (make sure it is the second edition)
- 3-in-1 Color Tool (the third edition) by Joen Wolfrom.

These can be found at quilt stores or ordered online.
