

Crimp and Create

Experience the magic of crimp cloth! Any fiber can be used for crimp cloth when orlon or polyester is used in the weft for weft crimp, or in the warp for warp crimp. Learn the technique/thought process through sampling in class. See why crimp cloth is a great stash-buster. Go home with your head filled with ideas to make easy-to-sew garments that flatter any figure. Only 6 seams and you have a vest. Shawls and scarves won't fall off your shoulders and can be expanded to cover chilly arms when needed. If you can warp a loom and read a draft you can learn to weave crimp. (Above left: student sample.)

Weft crimp, 8S Twill threading
2/8 merino, 8/2 polyester

Weft crimp, 4S Overshot threading
10/2 rayon, Giovanni Verbena polyester

Weft crimp body, warp crimp collar

8S M's & O's threading

10/2 Tencel, 40 WT. Polyester sewing thread

Warp crimp, Plain weave cloth

8S Twill threading

10/2 cotton, 8/2 polyester

Weft crimp, Plain weave cloth

4S Twill threading, before/after processing

40/2 linen, 40 WT. polyester sewing thread

Linen Top, finished

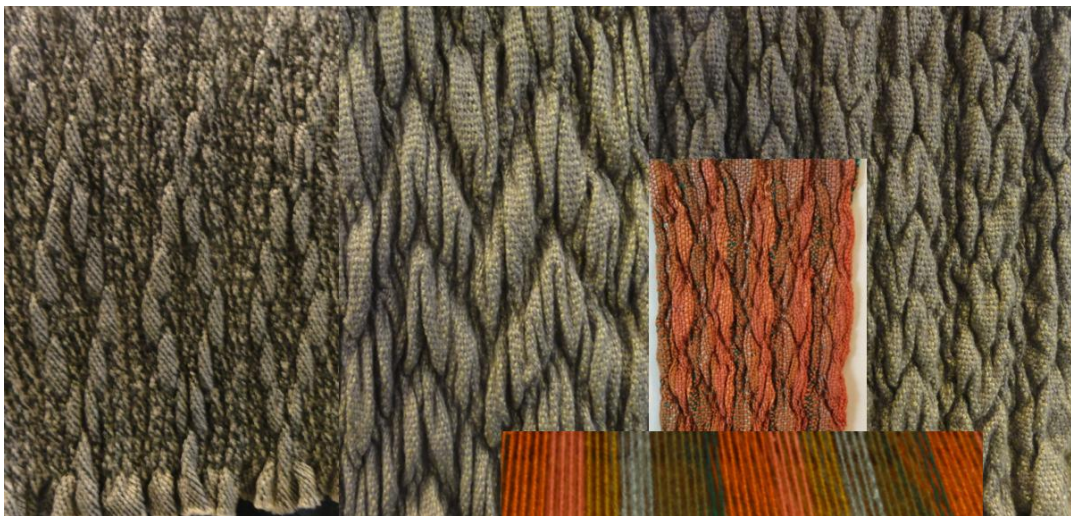

Weft Crimp, 10/2 Cotton, 8/2 polyester

Weft Crimp, 2/18 Merino, 8/2 polyester

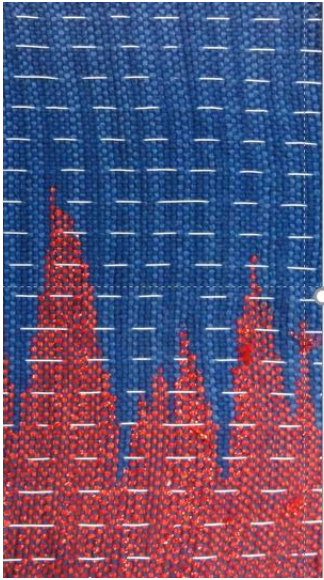

Warp Crimp, 10/2 cotton, 8/2 polyester

Weft Crimp, 8S Summer and Winter threading, Plain weave cloth, 10/2 cotton, 8/2 orlon

Above and below: Warp crimp, on-loom and processed samples, 8S 8/2 polyester warp, cotton weft, both samples.
(Above: student sample)

Warp Crimp – 8S. Sample that inspired the vest.

Stash-busting! Before and after processing. Weft crimp. (Student sample.)

Weft crimp, 10/2 overdyed cotton warp, 8/2 Orlec weft
